PROFESSIONAL SUMMARY

Aspiring Software Engineer currently gaining hands-on experience as a MERN Stack Intern at VTricks Technologies. Skilled in full-stack web development with a strong foundation in Data Structures, Algorithms, and OOPs. Proven ability to build and deploy full-stack applications through projects like ApplyWise, and recognized as a finalist at the Cyber Crimes Conclave 2024.

SKILLS

- **Programming Languages:** Java, C++, Python, JavaScript
- **Backend Technologies:** Spring Boot, Node.js, Express.js
- **Frontend Technologies:** React, HTML, CSS, Tailwind CSS
- **Databases & Tools:** SQL, PostgreSQL, Git, GitHub, Postman
- **Core CS:** Data Structures and Algorithms, Object-Oriented Programming, OS, DBMS
- **Languages Known:** English, Tamil, Kannada, Hindi

EDUCATION

B.E in Computer Science and Engineering , Sambhram Institute of Technology (2022-2026)	CGPA: 8.92
2nd PUC , K.L.E. Society's Independent PU College (2022)	88%
SSLC , East West High School (2020)	83.68%

EXPERIENCE

VTricks Technologies – MERN Stack Intern (Feb 2026 – Present)

- Developing a full-stack Alumni Management System using the MERN stack with role-based functionalities.
- Developing modules and functionalities with REST APIs, database operations, and responsive UI.
- Collaborating in a team environment and presenting technical progress during review meetings.

PROJECTS

ApplyWise | React, Spring Boot, PostgreSQL, JWT, TailwindCSS, Docker

- Developed a full-stack recruitment platform connecting employers and job seekers with role-based access control and secure authentication using Spring Security and JWT.
- Built RESTful APIs and PostgreSQL database schema to support job posting, job discovery, application tracking, candidate shortlisting, and resume-based job compatibility analysis.
- Implemented a resume insight feature that analyzes skill match, competition, employer responsiveness, and success probability, deployed with Docker on Render using a Spring Boot backend and React frontend via Axios.

CollabForge | React, Node.js, PostgreSQL, Socket.io, TailwindCSS

- Developed a full-stack platform for project-based collaboration, connecting clients with tech professionals via the PERN stack.
- Implemented core features including project management, collaboration requests, progress tracking, and a WebSocket-powered real-time chat system.
- Integrated secure JWT-based authentication and deployed the application on Render and Vercel, ensuring a fully responsive UI across devices.

HACKATHONS

- **Cyber Crimes Conclave (2024)** - Finalist; Collaboratively designed and presented an innovative cybersecurity solution addressing real-world cybercrime challenges.
- **Smart India Hackathon (2024)** - Proposed an ML-based solution to predict mechanical properties of aluminium wire rods for industrial quality optimization.

CERTIFICATIONS

Java Spring Boot - Infosys Springboard (Dec 2025)

Programming, Data Structures and Algorithms Using Python – NPTEL(IIT Madras) (Sep 2023)
